salon & day spa

# Body Reshaping

## NEW THIS FALL AT LATITUDE 33°

Wouldn't you like to turn back the clock and regain the fresh, youthful skin of a carefree teenager? Sure, we all would. But until science develops a real-life fountain of youth or time-travel technology, **Accent Laser** offers the next best thing.

**This revolutionary skin tightening regimen** uses advanced radio frequency (RF) technology to treat wrinkles non-invasively. Multiple clinical studies and thousands of satisfied patients have proven the effectiveness of this treatment in **tightening loose skin**, promoting healthy collagen production and **improving body contours**.

Compared to other skin treatment systems, you'll see *noticeable results faster*.

- **Pain-free, no analgesics or pre-treatments**
- **Treatments are less than one hour**
- **Recovery-free (no down time)**
- **Long-lasting**
- **Perfect for any part of the body (even sensitive areas)**
- **Effective for all skin types**

Dual-layer RF Thermotherapy laser treatments can be performed to treat loose wrinkled skin anywhere on the body.

The procedure is frequently used for toning thin, loose and crepe-like skin often found on the aging face, neck and under the upper arms. It is also excellent for firming skin on the post-surgical or postnatal abdomen, chest, thighs or breasts.

AREA	Pricing Based Upon Package (6)
Face and neck	\$750
All other body areas	\$500

Dual-layer RF Thermotherapy causes the deep structures of your skin to tighten right away; results are immediately visible. With time, new collagen develops, further tightening your skin and yielding even more beautiful, natural looking and firmer skin.

# Laser Hair Removal

## NEW THIS FALL AT LATITUDE 33°

**A revolution is underway.** Introducing laser hair removal that is fast and painless! Now offered by top spas and physicians around the world, Latitude brings you freedom from daily shaving, painful plucking and expensive waxing to give you silky smooth and beautifully bare skin.
